

# CAMBRIAN INTERNATIONAL ACADEMY

You can't really see what Cambrian Academy is by just driving past our campus. Even a campus tour can't quite show you everything we do.

Our specialized PE program is held at various off-campus locations. Our on-campus science lab is only the tip of the iceberg because some of our science classes do research and lab work on our floating lab on the Bay. There is MUCH MORE than meets the eye.

By providing these selected pages from our yearbook, we hope you will be able to get a glimpse at what Cambrian Academy is all about.

# David Delgado

**We believe that the high school years are crucial for young people. So we have created an environment that makes those high school years successful - an environment of trust - where each student's voice is heard and respected and where each instructor takes a personal interest in the growth of each student.**

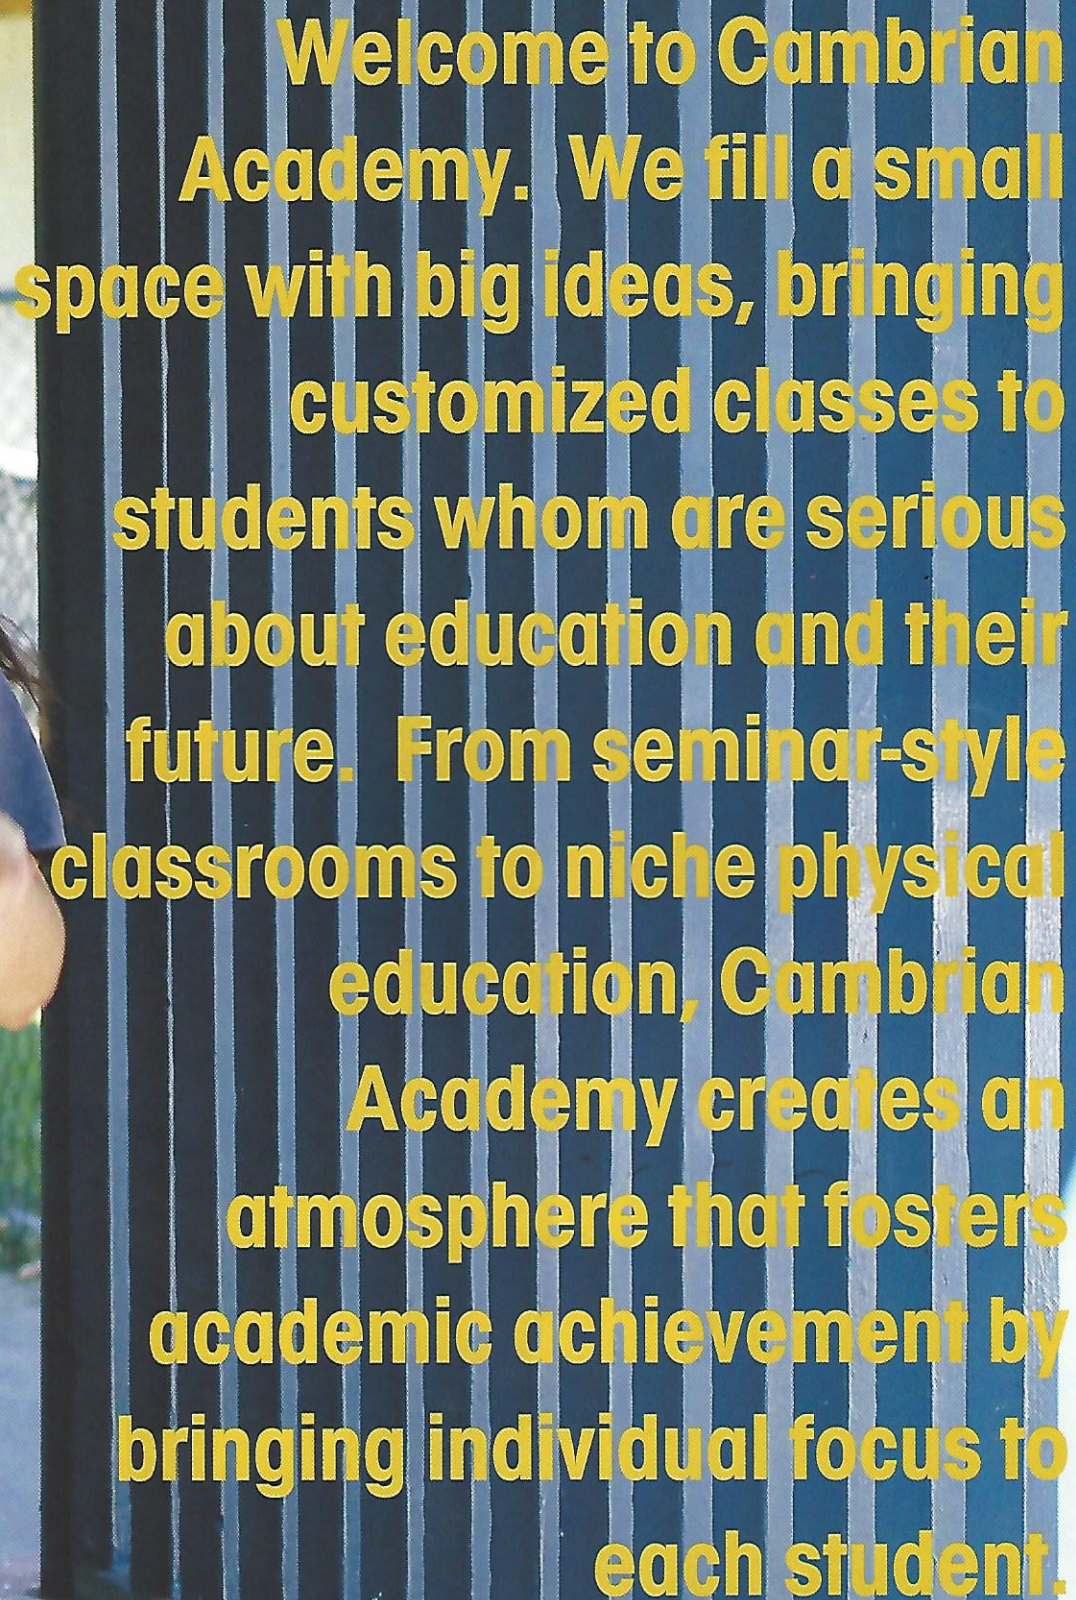

**A Cambrian Academy education prepares students to use the skills learned at school in all life's endeavors. Cambrian Academy is a life-changing experience, challenging and fun. It asks a great deal from every student - higher standards, greater expectations, and deeper engagement not only in the world of ideas, but also in the life of the community. Community service at Cambrian Academy is REAL. The Interact Club of Cambrian Academy is sponsored by the Rotary Club of Saratoga and Rotary International. Their service projects make a difference in our world. Students enjoy the benefits of a small supportive academic environment while having regular access to vast social interactions with 4,000 future leaders here in the Bay Area.**

**The "Cambrian Way" is a way of being: interacting with other minds, listening carefully, speaking respectfully, accepting new ideas and questioning old ones, using new knowledge, and enjoying the richness of human interaction. It is exemplified by the staff and embraced by the students. It's fun, it's exhilarating, it's the way to be.**

**Mr. Delgado, a graduate of UC Berkeley, brings us over 20 years of private school management experience. His experience includes various levels of administration, school development and organization, multi-campus accreditation, quality assurance, curriculum development, teacher selection and training, student assessment, student counseling, teaching, and problem solving.**

A person with long dark hair, wearing a blue t-shirt and black pants, stands on the left side of the frame. They are positioned next to a blue metal fence with vertical bars. The base of the fence is made of red bricks. The background is a bright, slightly overexposed outdoor area. The text is overlaid on the right side of the image, in a bold, yellow, sans-serif font.

**Welcome to Cambrian Academy. We fill a small space with big ideas, bringing customized classes to students whom are serious about education and their future. From seminar-style classrooms to niche physical education, Cambrian Academy creates an atmosphere that fosters academic achievement by bringing individual focus to each student.**

**No one is a stranger here. Our students may arrive from anywhere - China, Turkey, even Los Angeles, to find themselves in**

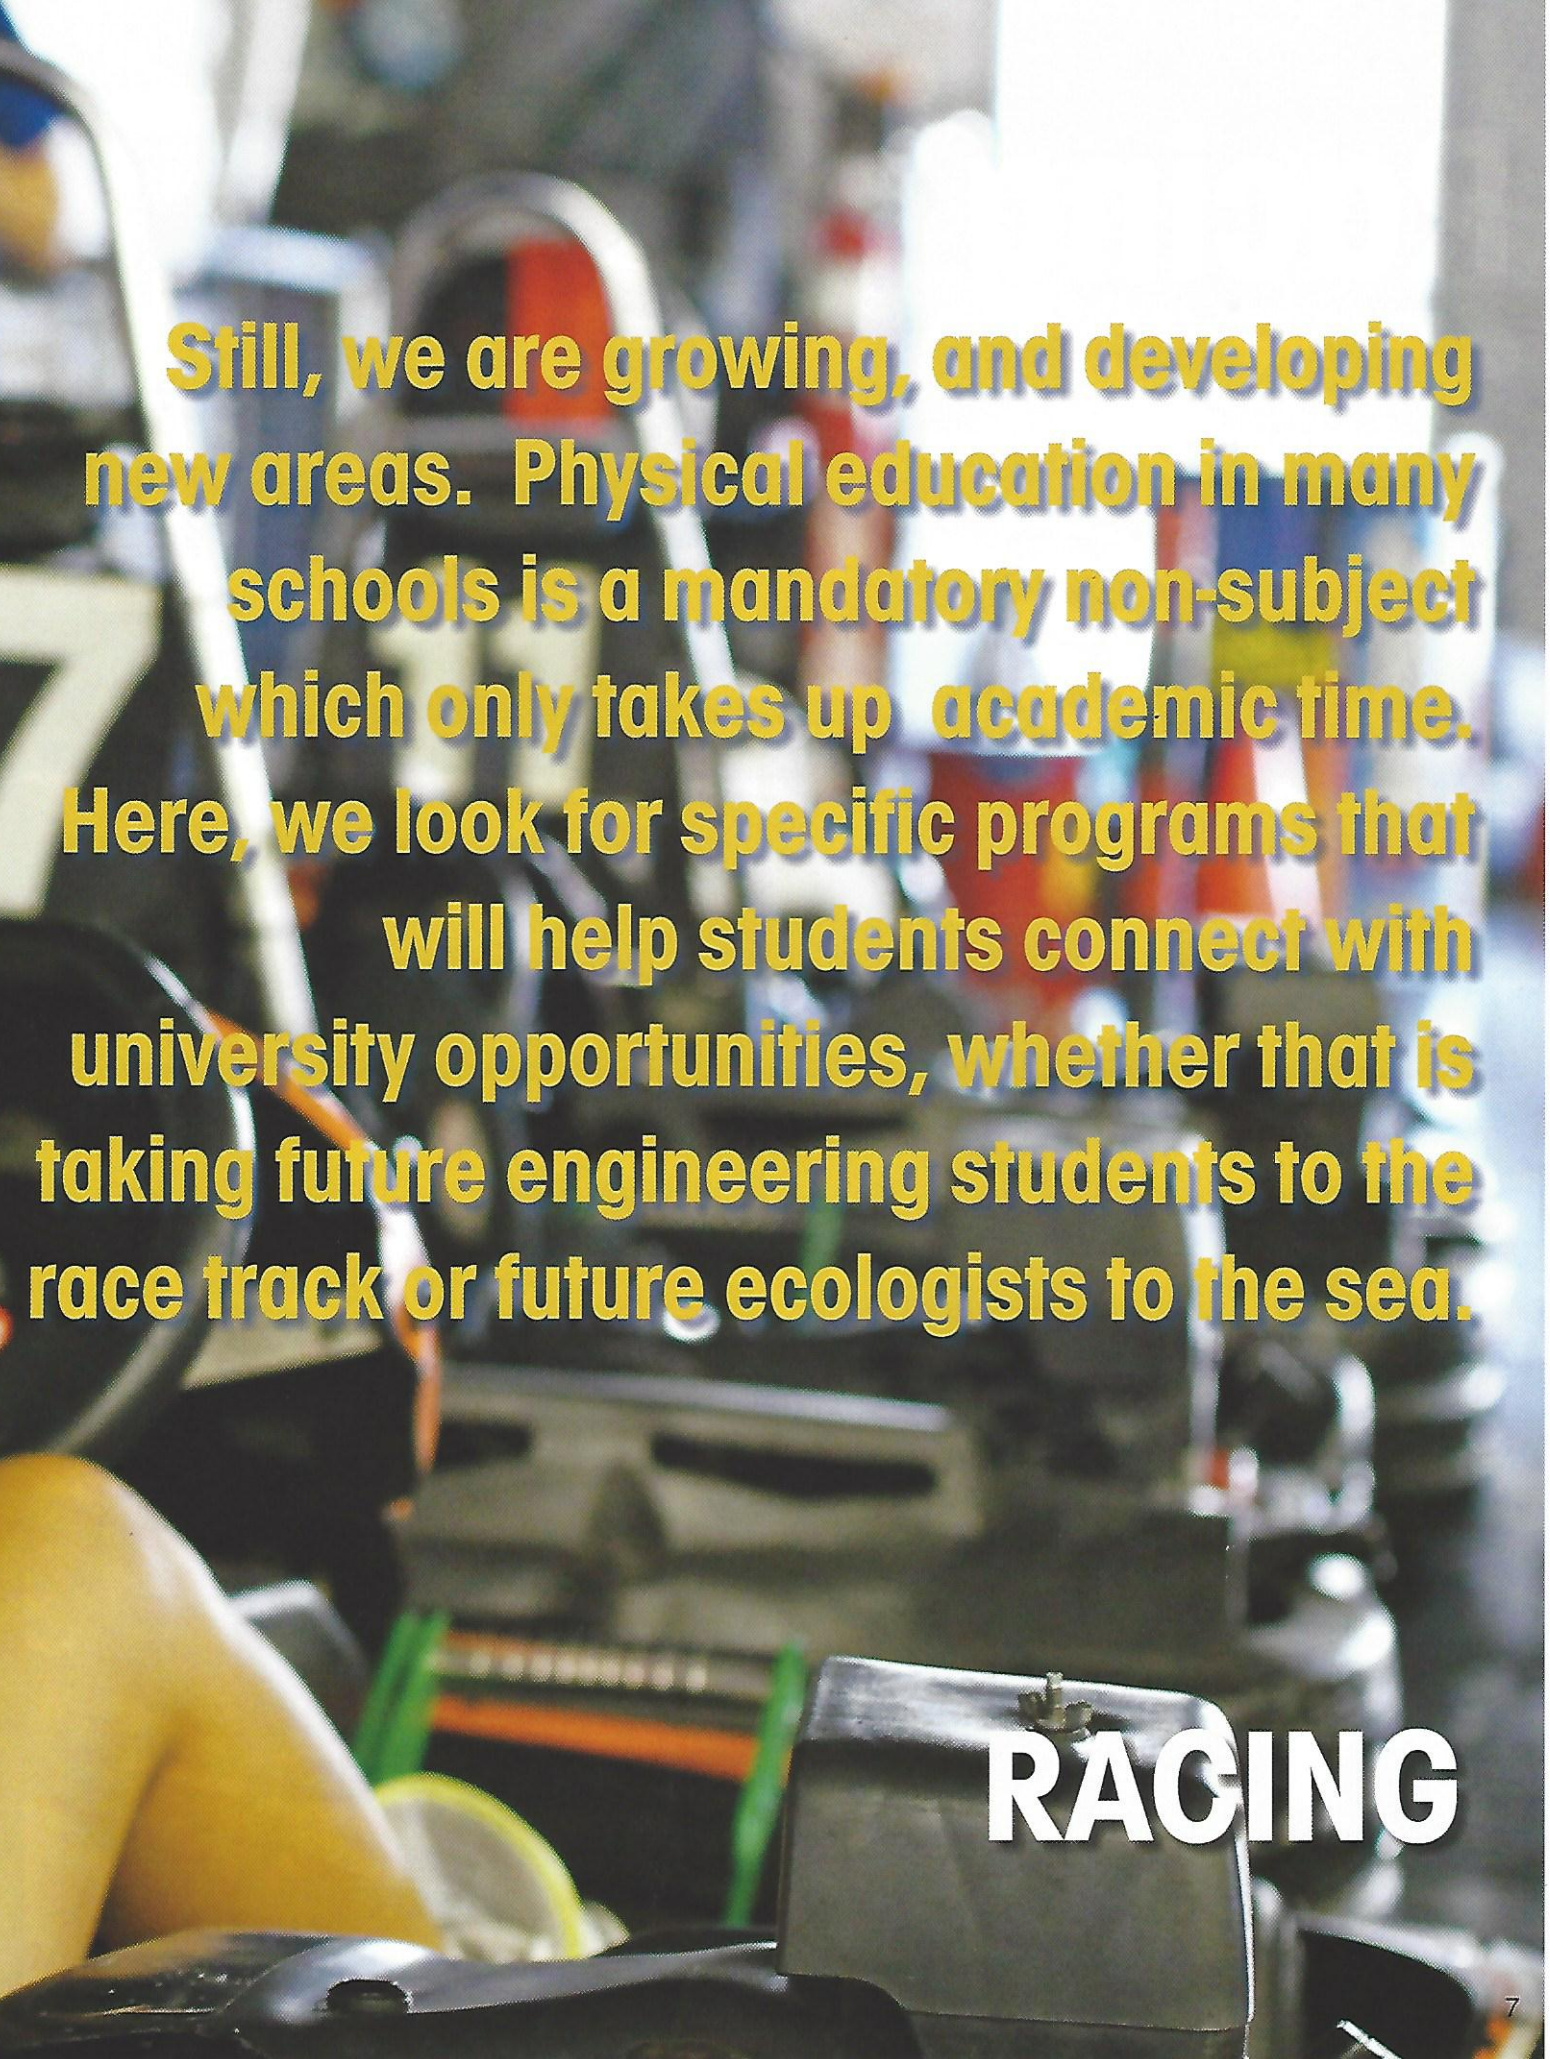

intimate classes of twelve (or less), where they will be more than names and i.d. numbers. We stay small to stay personable.

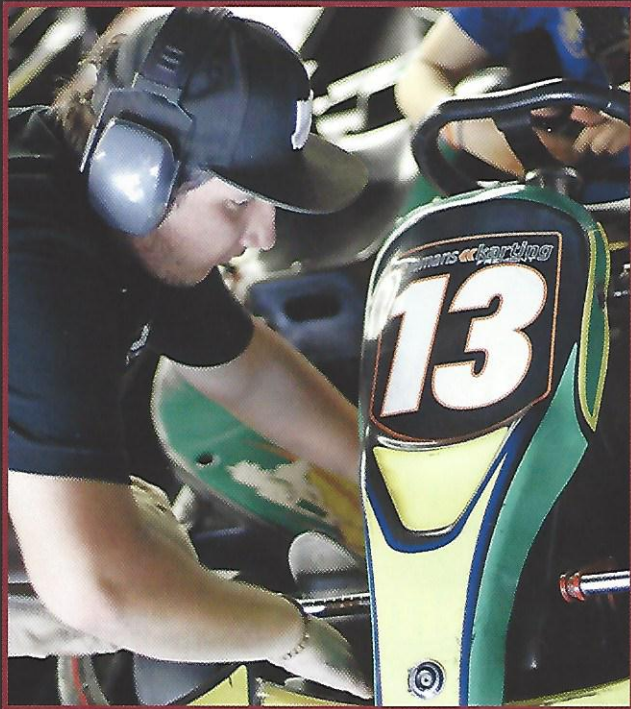

**Still, we are growing, and developing new areas. Physical education in many schools is a mandatory non-subject which only takes up academic time. Here, we look for specific programs that will help students connect with university opportunities, whether that is taking future engineering students to the race track or future ecologists to the sea.**

## What We Do

Here at Cambrian Academy, our headmaster, Mr. Delgado is an intense NASCAR fan! Out of appreciation for the sport, he started a racing team for his students so that they too can feel the need for speed! Maybe even aim to go pro one day.

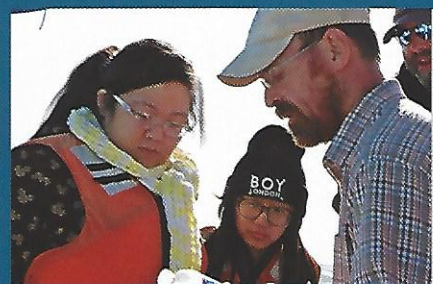

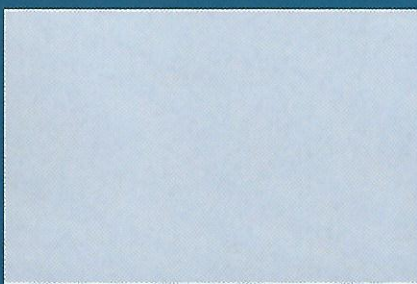

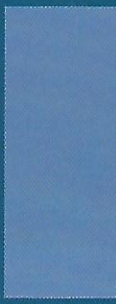

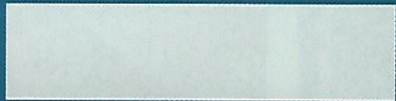

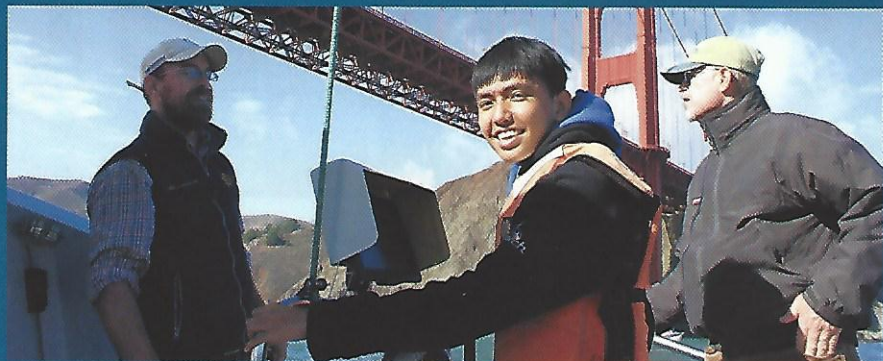

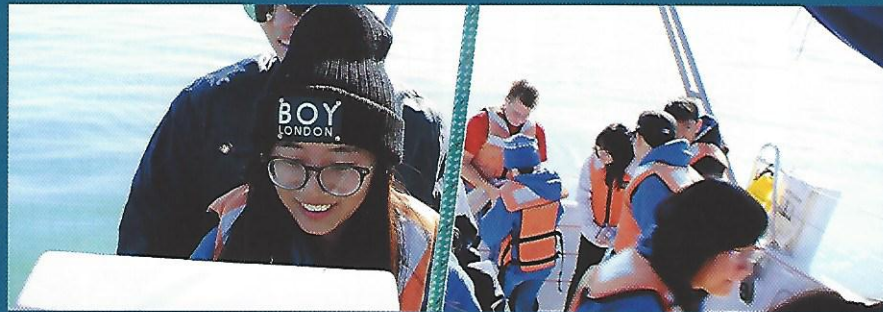

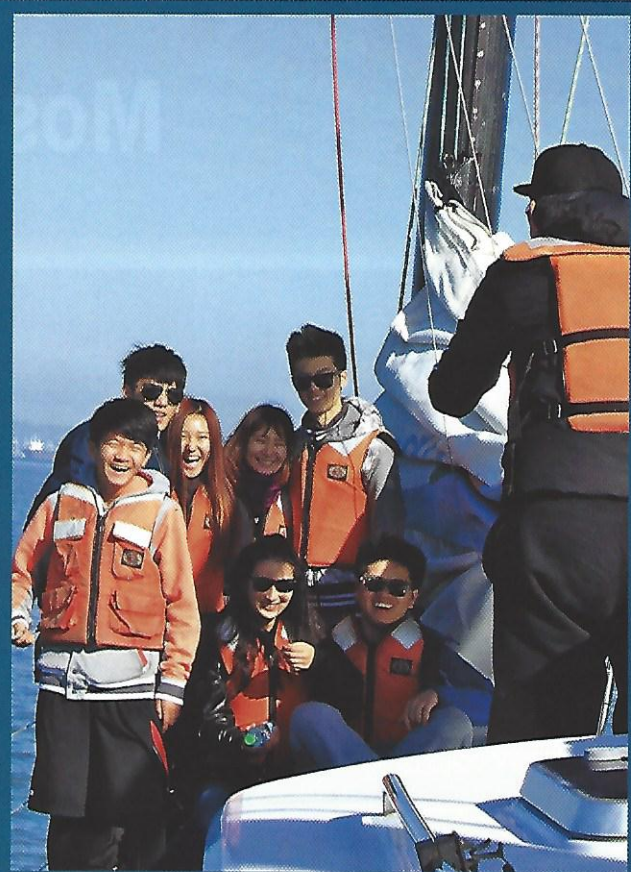

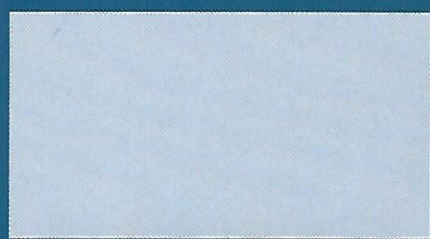

# MR. BENDER SAILING

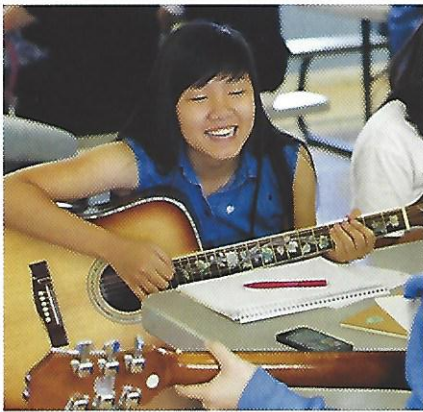

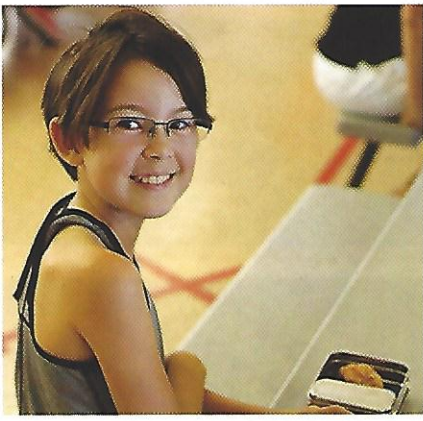

Our Marine Biology, Oceanography, and AP Environmental Science classes do their lab work on the research vessel Derek M. Baylis in the San Francisco Bay. We also have a sailing team.

# MR. LE, MR. BENDER PE

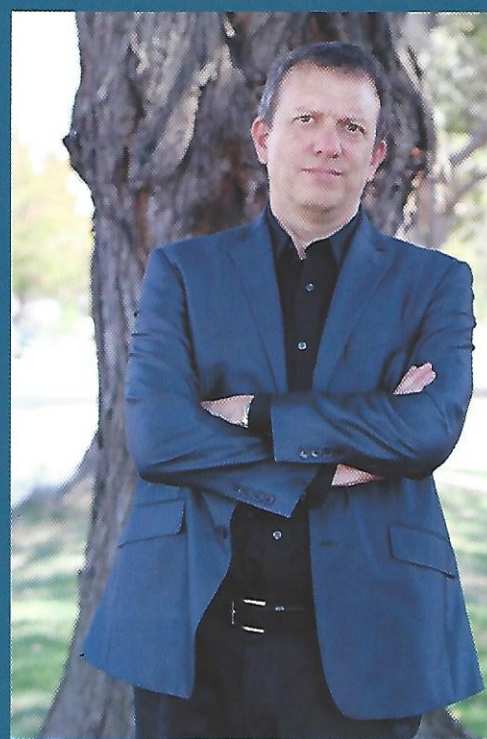

Currently, ALL PE activities are done at off-site facilities that you won't see when doing a campus tour.

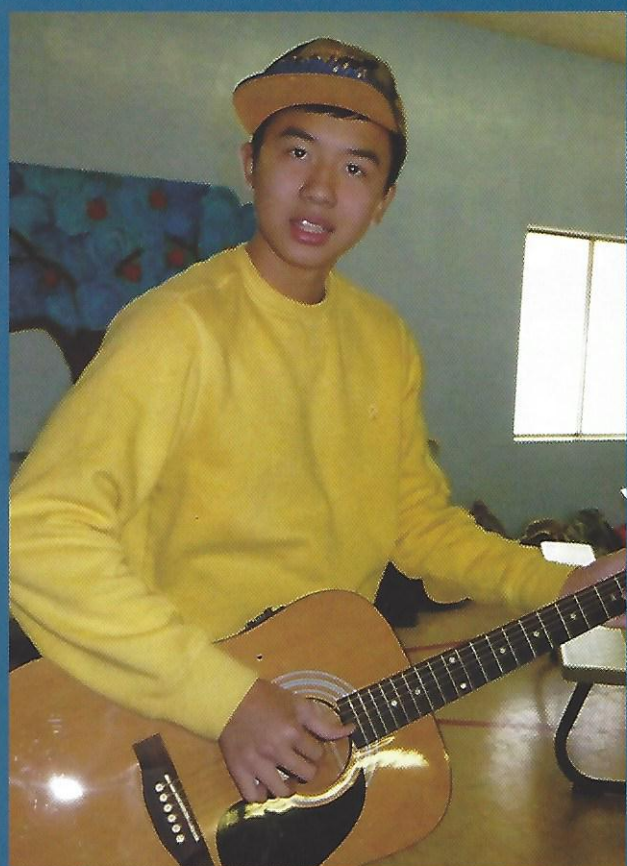

# MR. DELGADO BAND

YES, the Headmaster is also very involved with the students--coaching the motorsports team and teaching the stage band class.

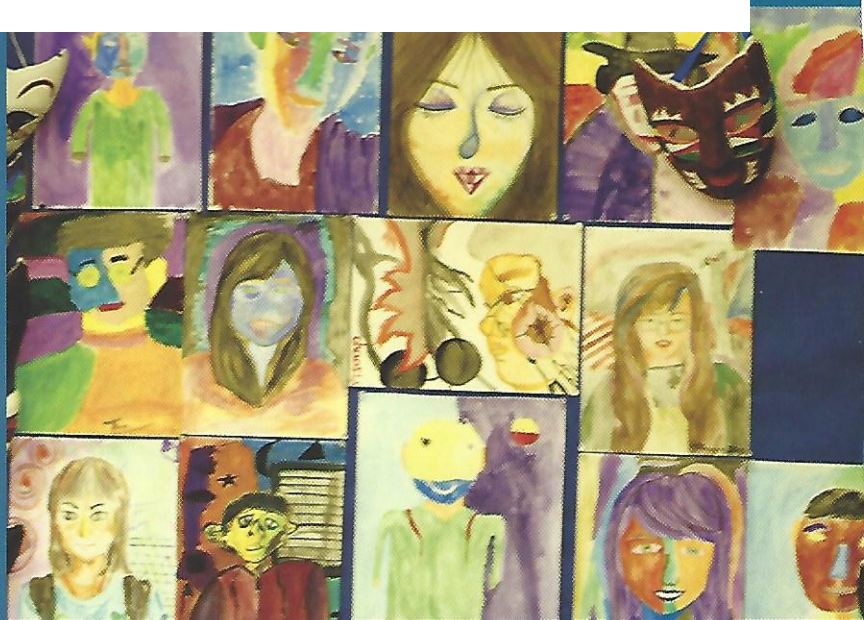

# MS. PRIELA ART

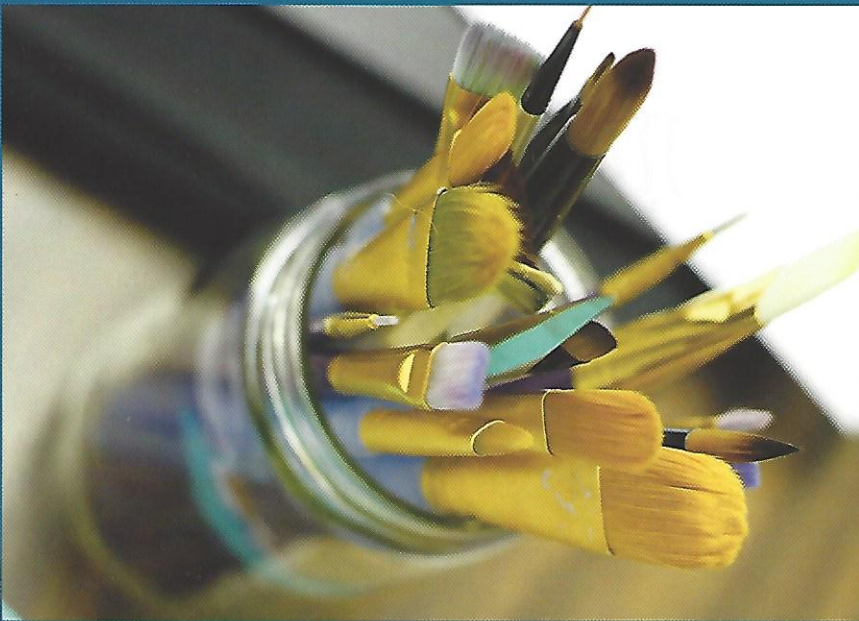

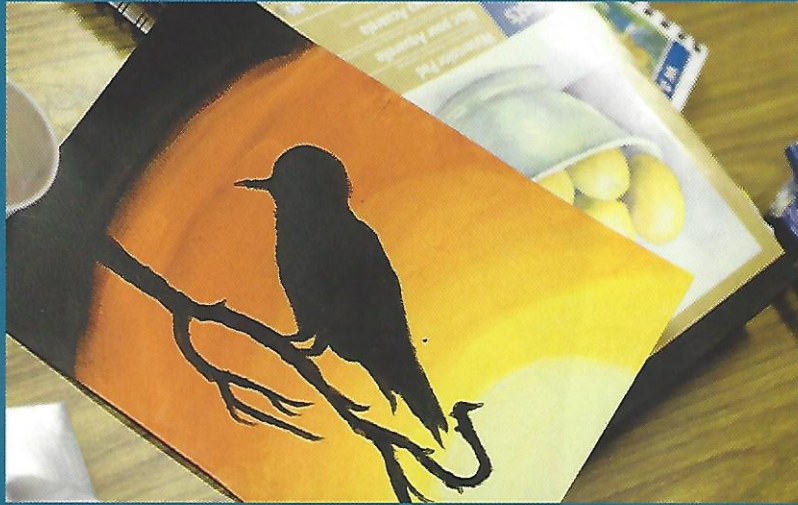

Our ESL teachers, Ms. Priela and Ms. Porter, also each teach additional (less-English-intensive) classes such as art and dance. This serves to strengthen the bonds of community between our native English speakers and our English language learners.

# INTERACT

"INTERNATIONAL" and "ACTION"

Interact goes beyond the boundaries that define club. It is a support system, a source of inspiration for a diverse group of people from all across the world. It serves as a flame, igniting the passion for SERVICE among teenagers as they grow alongside those they are able to call FAMILY.
